Art Unit: 1621

1. Claims 1-6, 9-21 and 24-30 are pending in this application.
2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6, 9-11, 12-21 and 25-30, drawn to compounds, composition and method of treating and making, when Cy is aryl and A is non heteroaryl.

Group II, claim(s) 1-6, 9-10, 12-14, 16-21 and 25-28, drawn to compounds, composition and method of treating and making, when Cy is aryl and A is heteroaryl.

Group III, claim(s) 1-6, 9-11, 12-21 and 25-30, drawn to compounds, composition and method of treating and making, when Cy is heteroaryl.

Group IV, claim(s) 1-6, 9-11, 12-21 and 25-30, drawn to compounds, composition and method of treating and making, when Cy is heterocycle.

Group V, claim(s) 24, drawn to intermediate compounds.

3. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: in each group Cy and A are chemically disparate groups, and likewise, compounds of claim 24 are divergent chemical compounds, thus lacking the same or corresponding technical feature.

4. In view of the complex nature of the restriction requirement, a written restriction requirement has been made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Additionally, applicants need to elect a single disclosed compound for either of the Group elected, and should point out to the claims readable there upon. Claims will be examined to the extent they read on the elected species and closely related compounds.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
